

Hello!  
A Designer who  
**Judges a book  
by its cover...**

Because if the cover does not impress you what else can?

## I'm a Software Engineer.|

Currently, I'm a Software Engineer at Facebook,

A self-taught UI/UX designer, functioning in the industry for 3+ years now.  
I make meaningful and delightful digital products that create an equilibrium  
between user needs and business goals.

## Work Experience

I'm currently looking to join a cross-functional team  
that values improving people's lives through accessible design

### Featured Project Example Project

A web app for visualizing personalized Spotify data. View your top artists, top tracks, recently played tracks, and detailed audio information about each track. Create and save new playlists of recommended tracks based on your existing playlists and more.
